

# Hair VS Wool

Cut out the lapbook piece below as one piece. Fold the top under. Fold the bottom under. Open the book. Cut on the solid black line to form two flaps.

Refold so the cover is on the front.

**Write how hair sheep are different from wool sheep under the correct flap.**

Hair Sheep

Wool Sheep

Glue this area to your lapbook or notebook.

Hair vs.  
Wool

Unlike wool sheep, which must be sheared regularly, hair sheep do not need to be sheared. They grow a different type of fiber that sheds naturally. Because of this, hair sheep may be more suitable for hot climates, while wool sheep may do better in colder climates.
